It is absolutely impossible that you are not thoroughly familiar with 73 Magazine. Isn't it? When you send your QSL make a note on it and we'll send you a free sample so you can see how incredibly good 73 is, how it has more articles than any other ham magazine, and how the Institute of Amateur Radio is the fastest growing ham club in the world. You might also want to know about 6-up, our new VHF magazine. Sample of that available too.
